Description of HRD course:

Take Pen, First Drive, 1st Obstacle - 10 sheep will be placed in the take pen. HRD I handlers may enter the pen and move around to assist the dog but may not touch the dog or stock without penalty. HRD II handlers may enter the pen but must remain just inside the gate. HRD III handlers may not enter the pen. The handler and dog will take the sheep out of the pen into the first arena. The sheep will be driven (fetched) to the top of panel runway on the far side, turned and driven through the panel back to the handler, who will move to the gate on the far side. HRD III handlers must remain behind the 1st cone. HRD II handlers may move up to the 2nd cone during the drive, but not past it. HRD I handlers may accompany their dog to take the sheep through the panel runway.

Gate Sort - At the gate in the corner, the handler and dog will gate sort off 5 sheep to take into the next field. For HRD III handlers, there will be one sheep with a neck ribbon which must be in the group sorted off.

Drive to set out area, 2nd Obstacle - The 5 sheep sorted off will be driven to the left, through a panel, turned and driven to a setout area (which will have feed or hay set for the sheep). HRD III handlers will remain at the gate, or move to the level III cone during the drive, then recall the dog once the sheep are in position. HRD II handlers may move up to the level II cone during the drive. HRD I handlers may accompany the dog and sheep to the setout area, then move back to the level I cone.

Gather - The handler will set the dog at the appropriate cone for level I, II, or III. HRD I handlers may move to within 15 ft of the sheep for the gather. HRD II handlers may move halfway between the cone and the sheep before sending the dog on the gather. HRD III handlers and dog both are at the cone. The handler sends the dog to bring the sheep down the field to the level III cone. The sheep are moved counterclockwise around the cone and taken to the free-standing pen.

Freestanding Pen and repen- The handler and dog will put all of the sheep in the pen and close the gate. Then the handler and dog will remove the sheep from the pen and take them to the gate to the barnyard. The handler will open the gate and repen the sheep.

Ribbon Pull (HRD III only) - Before repenning the sheep, HRD III handlers will hold the sheep in an area between the level III cone and the repen gate and remove the ribbon from the marked sheep.
